

Dear Parents,

The end of our first full week in school and so much has happened - the Summer holidays certainly do seem like a distant memory now. Our children have certainly risen to the challenges of their new classes and it has been a real pleasure to be able to visit each year group and find out all about the many exciting things that they have been working on this week. We'll all be ready for a restful weekend, let's hope the sun continues to shine!

Spotlight On...New Beginnings

New Beginnings...

We now have all our Reception class in school. It was such a delight to meet them on their tour of 'big' school, there were many smiling faces and interesting questions!

I have also given every child in the school a daffodil or tulip bulb to plant. This is a sign that each new year is a new beginning, and a chance to grow something new in our lives. I can't wait to see them in the Spring!

Bikeability

Everybody in Years 5 and 6 should have received their forms for Bikeability. All forms need to be returned asap as it commences on 26th September.

Permission for Exams

Any children who are given permission to be absent for an entrance exam need to return to school once they have finished. Thank you.

Holiday Dates

Please do check our school holiday dates as they are not the same for all Cheshire schools. We finish on Friday 28th October for our next half term holiday.

Curriculum Overviews

All children will be bringing home a synopsis of the work that they will be covering this term. It is valuable information for parents and carers as it allows their learning to be extended beyond the classroom. You may even manage to plan in some family days out linked to the topics they are studying.

KIRFs (Key Instant Recall Facts)

All children in Years 1 to 6 will bring home a sheet of KIRFs today. There will be a different sheet each half term. These facts are a very important part of the Maths that they will be learning this year. It is expected that all children will learn these and be able to apply them to their work in class. Please ask your child's class teacher if you need further information.

Being Safe Online

I have been asked to share the following information from our 'Police Safer Schools' Lead and would be extremely grateful if you would discuss the following points with your children. Technology is advancing so much it is vital that we keep our children safe.

Protect yourself online:

- Only accept friend requests and other types of communication from people who you know and trust.
- Adjust your privacy settings so that you are in control of your profile and you know who is able to view it.
- Be aware that Facebook, Twitter and other forms of social media usually have some form of age restriction; Facebook for example is 13 years and upwards.
- If you are unfortunate enough to become a victim of online bullying, be sure to block the communications from the person sending them to you and report them to the site administrators.

Advice for parents:

- Try to put the computer in an easy to see place in the home so that you can monitor what sites your child is visiting
- Check out the websites your child is using, just like you'd check out a school or a youth group they might visit. Have a look and make a judgement whether you think it is a safe environment for them to be involved in.
- Set up reasonable guidelines and limits for internet usage. Understand that it may be a big part of their life but that it needs to be regulated

- Explain to your children why it is important for them never to give out personal details or post pictures of themselves publicly, just like you would when you explain to them not to talk to strangers
