

St Vincent's Science Ambassadors

Do you like experimenting, discovering,
exploring?

Then **St Vincent's Selfie Competition** is for you!

Over the half-term holiday we are running a Science competition.

All you need to do is to get someone to **take a photo of you doing a fun Science activity or investigation** and then write a couple of sentences to explain what you were doing and what you found out.

When you have your photo get your parents to email it to the school office admin@stvincents.cheshire.sch.uk by Friday 6th June.

There will be four prizes - two for KS1 and two for KS2 and everyone who takes part will receive a certificate.

So, get your family to help you raid the kitchen cupboards, pull out the string and sticky tape or go out into the garden and explore and get experimenting!
